

GETTING STARTED

- Compounded Medication requires a prescription by law.
To achieve the best possible outcome, we need to work with your doctor as well as YOU.
- Filling your prescription
 - Fax your prescription to (02) 99827205
 - Phone to confirm arrival of fax and details such as name, address, phone number, when it will be ready & cost and payment details.
 - Payment can be made with credit card, money order or direct debit if posting
If collecting, payment can be as above as well as cash or eftpos.
 - By Law, we require the original prescription, so we need for this to be either posted after faxing or to bring it to us upon pickup of prescription medication.
 - The pharmacy label on your dispensed prescription will state the number of repeats remaining (highlighted). If it shows NIL Repeats or Last Repeat you will need to contact your doctor to make arrangements for a new prescription.
- Home delivery
 - We “express post” medication, or airmail if overseas
 - You may arrange your own courier if you wish.
